*Dairy & Food Software
Innovators since 1975*

At Data Specialists, Inc. we won't ask you to accept generic software that supposedly works for any business. We understand the specific needs of the dairy and food processing industry.

We developed Dairy & Food Tracker software exclusively for companies like yours. Since 1975 DSI has been providing total solutions for its customers including consulting, software, installation and training.

Data Specialists, Inc. has *the* software for the Dairy Processing Industry. We have taken software developed in an actual dairy plant, enhanced it, and utilized it in plants across the nation to offer you a solution unsurpassed in the industry.

DSI's wide selection of dairy processing modular software can help you increase the efficiency of every aspect of your business, from clerical tasks and management functions to up-to-date cost analysis. You can purchase the software by module or as a full suite.

Consulting – DSI has extensive data processing and dairy experience – professionals to assist and guide you in your business decisions. Services include: Dairy & Food Business Management Consulting, Plant Mass Balance Audits, Information Technology, and Plant Yield Optimization Audits.

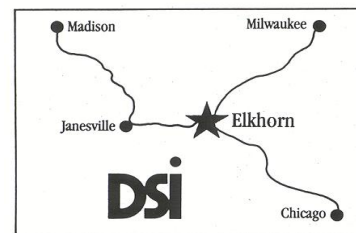

Packaged Software – Proven process industry software researched, designed and developed over a period of years to offer a solution unsurpassed in the industry. We offer integrated financial applications in addition to our specialized industry solutions.

Product Enhancement – Through customer surveys and advisory committees, we seek out the needs of our customers. Armed with this customer feedback, and a pool of maintenance dollars from the entire maintenance contract base, our development team is able to offer valuable product enhancements at no additional charge to these customers. Our goal is to continually enhance your initial investment and protect its long-term value.

Training – DSI offers their corporate training facility or provides on-site training to educate your staff. This training is critical to insure optimal use of your hardware and software. New employee and refresher courses offered.

Support – DSI's investment in the latest technology and experienced staff provides you with the expertise to either act as your main support staff or compliment your existing resources.

Customer Group – Our biennial conference encourages customer interaction - with each other, as well as with key DSI personnel. Numerous workshops presented by DSI and industry experts

DSI is conveniently located only 1 hour from Madison, Milwaukee, and Chicago for easy travel planning.
